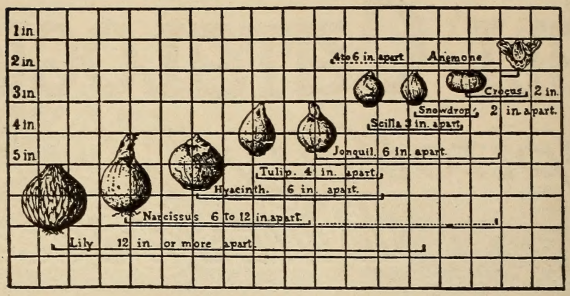
Bolgiano's Fall Bulbs

FOR 1934



HOW TO PLANT

OUTDOOR CULTURE—Plant the bulbs as soon after September as possible to enable the roots to make good growth before the cold weather sets in. They can, however, be planted from September until the ground becomes frozen. They require a moderately rich soil, or else apply Loma, Sheep Manure or Bone Meal. How far apart and how deep to plant the different bulbs is shown in the accompanying chart. When the ground freezes, cover with 3 or 4 inches of leaves or dry litter. Rake off after frost.

INDOOR CULTURE—Plant hyacinths, tulips and narcissus in a sandy soil. Give a good soaking after planting and water once or twice a week during the time the bulb makes root. After planting keep in a dark place in the house and keep a paper bag over the pot until the sprout is about three inches long. They may then be brought to the light and bag removed.

GROWING PAPER WHITE NARCISSUS IN WATER—Place a dozen bulbs in a shallow bowl, cover with small stones and keep filled with water. Place a few small pieces of charcoal in the bottom of the bowl to keep the water from fouling. Keep in a moderately temperate room. They require no care, no attention. They keep on growing and produce a beautiful flowering plant in about six weeks.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED

contains a well-balanced blend of various American and foreign fine bladed and deeply rooting grasses which has proved to produce the very best results under the varied conditions as to soil and climate met with in America.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED will give a green, smooth, velvety sod with a thick bottom and free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect. **Lb., 35c; 5 lbs., $1.50; 25 lbs., $6.50.**

BOLGIANO'S "SHADY NOOK" LAWN GRASS SEED

The Grass That Will Grow in Shady Places

It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our Capitol Park Lawn Grass Seed it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole era with a beautiful carpet of green. **Lb., 40c; 5 lbs., $1.75; 25 lbs., $7.75.**

BOLGIANO'S FAIR GREEN LAWN GRASS

Special Mixture with Creeping Bent

For a base there is still nothing superior to Kentucky Blue Grass, which remains evergreen all winter. Then there's a grass that resists the dry summer weather; one to grow quickly, giving an even sod in a short time; the old favorite white clover that most people want in abundance, and finally bent grass to give that dense undergrowth and velvety appearance so wanted by all. **Lb., 50c; 5 lbs., $2.25; 10 lbs., $4.25.**

Lōma The Lawn Tonic

It is quick acting. You can readily see on an established lawn a vast difference in ten days after applying Loma. Greener, healthier, thicker, more velvety.
